Important News

- **EHS Support for all Jelly Bean (Android 4.1.2) devices and TC70 KitKat (Android 4.4.2) BSP version 112414 device is terminated** - EHS v2.5 will support KitKat (except TC70 KitKat BSP version 112414) and higher OS versions. EHS v2.4 and earlier versions will still be available on the Support Portal for use on Jelly Bean devices and TC70 KitKat BSP version 112414.
- **EHS Installer apk release is terminated** - With the end of support for Jelly Bean devices and TC70 KitKat BSP version 112414, EHS v2.5 and higher will no longer distribute a separate installer APK for these devices. EHS v2.5 and higher will contain only one apk for all Zebra devices running KitKat (except TC70 KitKat BSP version 112414) and higher.

Introduction

Enterprise Home Screen (EHS) is a replacement application launcher for Symbol Android devices, designed to allow only specified applications to be launched.

Description

- Added support for TC51/TC56, TC75x/TC70x Android Marshmallow 6.0.1
- Added support for ET5X Android Lollipop 5.1.1
- Added support for TC8000 Android Lollipop 5.1.1
- Added support for TC70 Android Lollipop 5.1.1
- Added support for TC75 Android Lollipop 5.1.1
- Added support for MC67 Android KitKat 4.4
- Added support for MC40 Android Lollipop 5.1.1
- Added support for MC18 Android Lollipop 5.1.1
- Added support for MC32 Android Lollipop 5.1.1

- Removed Support for all Jelly Bean (Android 4.1.2) devices and TC70 KitKat (Android 4.4.2) BSP version 112414 device. EHS v2.4 and earlier versions will still be available on the Support Portal for use on those devices.
- Terminated EHS Installer apk release. With the end of support for Jelly Bean devices and TC70 KitKat BSP version 112414, EHS v2.5 and higher will no longer distribute a separate installer APK for these devices. EHS v2.5 and higher will contain only one apk for all Zebra devices running KitKat (except TC70 KitKat BSP version 112414) and higher.
- Changed few apps/links appearing in the default User mode home screen by changing the default EHS configuration XML file. Replaced the link for ET1 video with the link for zebra techdocs site and removed the Rapid Deployment Client application.
- Fixed - User application icons not loading on User home screen when a device is rebooted with a SIM card.
- Fixed - User/Admin home screen does not get updated automatically when applications are installed or uninstalled.

UPDATE1

- Fixed - When the Keyguard Camera is disabled, camera icon is not shown in User Mode sometimes and also the camera in User mode cannot be launched.
- Fixed - EHS is generating a large log file with repetitive com.android.camera2 text messages in some devices.
- Fixed - When Kiosk mode is enabled, after rebooting a KitKat device EHS sometimes shows a blue color waiting screen which does not disappear automatically.
